

13th June 2022

Dear parent / carer,

Post 18 information Evening July 7th 2022 6.00-7.30pm

As part of our careers guidance programme we will be holding an information evening for parents / carers to attend to ensure that you are fully aware of the pathway choices available upon completion of sixth form.

We have organised an evening event for you to attend on site at LDEUTC on 7th July, where you will be informed about both university and higher / degree apprenticeship options. We know that parents are one of the biggest influencers in a young person's education and therefore we want to ensure that you are fully aware and up to date with the correct information.

At our information evening we will have a presentation from UEL, not to promote their courses necessarily although they will always welcome LDE applicants, but more so to ensure that you as a parent / carer understand the process and have the information you require. We will also have a presentation on apprenticeships to dispel any myths and give you the information you need to understand the opportunities available. I hope to have two of our alumni with us to talk to you from their perspective too.

Please register to attend via the Eventbrite link below, you may bring your son / daughter with you. In the meantime, please take a look at the Careers area of the LDEUTC website [LDEUTC](https://www.ldeutc.co.uk) where you and your child will find a lot of information to support these next steps.

Please book your ticket/s here: [Post 18 talk](#)

Kind regards

Janice Tricks
