

Balfour Beatty

Employer Engagement

Balfour Beatty have worked across nine curriculum areas, showcasing the practical value of curriculum topics in real-world settings. They have played a vital role in delivering a blended learning provision that prepares our learners for industry and fosters vocational aspirations. Click the teacher's quote to learn more about some of these incredible employer engagements!

Business:

'Our business learners are required to create and pitch a presentation about innovation and enterprise as part of their assessment. With the support of leading employers from Balfour Beatty, our learners were motivated to approach their presentations from a real-world context,' Sharian, business teacher.

Geography:

'After working with Balfour Beatty, learners on average achieved 1.5 grades more than they had previously on any other assessment which is testament to how employer led projects not only supports our learners,' Sabrin, Humanities lead.

Design:

'This project offered learners the opportunity to have these choices applied in a real industry context with the support of an employer,' William, Curriculum Lead Design.

Balfour Beatty

Economics:

'Learners benefitted from an interactive discussion on how Market Externalities and Market Failure has an impact on EV. It thinking about what is happening now in the economy,' Sharian, Business Teacher.

Maths:

'Through this masterclass, learners were able to use actual technical drawings and see first-hand how scale factor is applied in real life industry contexts when plotting wind turbines,' Lena, Maths Teacher.

Psychology:

'The Balfour Beatty construction group's project brief has given me an opportunity to explore how I could develop and maintain the greenery in an urban area despite the rise of modern infrastructures,' Year 12 learner Tashim.
