

London Design & Engineering UTC

Opening College to
full use from 1st September 2021

14th January 2022

COVID-19 Risk assessment – Opening LDE UTC September 2021

The overall government guidance says the following:

The government continues to manage the risk of serious illness from the spread of the virus. The Prime Minister announced on 27 November the temporary introduction of new measures as a result of the Omicron variant and on 8 December that Plan B, set out in the autumn and winter plan 2021, <https://www.gov.uk/government/publications/covid-19-response-autumn-and-winter-plan-2021/covid-19-response-autumn-and-winter-plan-2021> was being enacted. As a result, these measures are reflected in this guidance for schools. This advice remains subject to change as the situation develops.

COVID-19 continues to be a virus that we learn to live with and the imperative to reduce the disruption to children and young people's education remains.

Our priority is for you to deliver face-to-face, high-quality education to all pupils. The evidence is clear that being out of education causes significant harm to educational attainment, life chances, mental and physical health.

We have worked closely with the Department of Health and Social Care (DHSC) and the United Kingdom Health Security Agency (UKHSA) to revise this guidance.

The link to reviewed Guidance: <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak>.

Additional PPE for coronavirus (COVID-19) is only required in a very limited number of scenarios, for example, when:

- a pupil becomes ill with coronavirus (COVID-19) symptoms, and only then if a 2-metre distance cannot be maintained
- performing aerosol-generating procedures (AGPs) – Guidance is provided at <https://www.gov.uk/government/publications/safe-working-in-education-childcare-and-childrens-social-care/safe-working-in-education-childcare-and-childrens-social-care-settings-including-the-use-of-personal-protective-equipment-ppe#aerosol-generating-procedures-agps>

This operational risk assessment includes:

Control measures

1. Ensure good hygiene for everyone.
2. Maintain appropriate cleaning regimes.
3. Keep occupied spaces well ventilated.
4. Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19.

Social Distancing and 'bubbles' – Government operational guidance:

It is no longer necessary to keep children in consistent groups ('bubbles'). As well as enabling flexibility in curriculum delivery, this means that assemblies can resume, and there is no longer a need to make alternative arrangements to avoid mixing at lunch.

Clinically extremely vulnerable (CEV) students

All clinically extremely vulnerable (CEV) children and young people should attend their education setting unless they are one of the very small number of children and young people under paediatric or other specialist care who have been advised by their clinician or other specialist not to attend.

Engage with the NHS Test and Trace process: Tracing close contacts and isolation

Close contacts in schools are now identified by NHS Test and Trace and education settings will no longer be expected to undertake contact tracing.

As with positive cases in any other setting, NHS Test and Trace will work with the positive case and/or their parent to identify close contacts. Contacts from a school setting will only be traced by NHS Test and Trace where the positive case or their parent specifically identifies the individual as being a close contact. This is likely to be a small number of individuals who would be most at risk of contracting COVID-19 due to the nature of the close contact. You may be contacted in exceptional cases to help with identifying close contacts, as currently happens in managing other infectious diseases.

From 14 December 2021, adults who are fully vaccinated and all children and young people aged between 5 and 18 years and 6 months identified as a contact of someone with COVID-19 are strongly advised to take a LFD test every day for 7 days and continue to attend their setting as normal, unless they have a positive test result. Daily testing of close contacts applies to all contacts who are:

- fully vaccinated adults – people who have had 2 doses of an approved vaccine

- all children and young people aged 5 to 18 years and 6 months, regardless of their vaccination status
- people who are not able to get vaccinated for medical reasons
- people taking part, or have taken part, in an approved clinical trial for a COVID-19 vaccine

Children under 5 years are exempt from self-isolation and do not need to take part in daily testing of close contacts.

Pupils with SEND identified as close contacts should be supported by their school and their families to agree the most appropriate route for testing including, where appropriate, additional support to assist swabbing. For further information please see SEND guidance. [Special schools and other specialist settings: coronavirus \(COVID-19\) - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/special-schools-and-other-specialist-settings-coronavirus-covid-19)

Further information is available in NHS Test and Trace: what to do if you are contacted and in the stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection

18-year-olds are treated in the same way as children until 6 months after their 18th birthday, to allow them the opportunity to get fully vaccinated. At which point, they will be subject to the same rules as adults and so if they choose not to get vaccinated, they will need to self-isolate if identified as a close contact.

Settings will continue to have a role in working with health protection teams in the case of a local outbreak. If there is a substantial increase in the number of positive cases in a setting (see Stepping measures up and down section for more information [Actions for schools during the coronavirus outbreak - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/actions-for-schools-during-the-coronavirus-outbreak) or if central government offers the area an enhanced response package, a director of public health might advise a setting to temporarily reintroduce some control measures.

Face coverings

Face coverings Face coverings help protect the wearer and others against the spread of infection because they cover the nose and mouth, which are the main confirmed sources of transmission of COVID-19.

Where pupils in year 7 (which would be children who were aged 11 on 31 August 2021) and above are educated, we recommend that face coverings should be worn by pupils, staff and adult visitors when moving around the premises, outside of classrooms, such as in corridors and communal areas. This is a temporary measure.

From January 4th, we also recommend that in those schools where pupils in year 7 and above are educated, face coverings should be worn in classrooms. This does not apply in situations where wearing a face covering would impact on the ability to take part in exercise or strenuous activity, for example in PE lessons. This will also be a temporary measure.

Pupils in these schools must also wear a face covering when travelling on public transport and should wear it on dedicated transport to and from school.

We would not ordinarily expect teachers to wear a face covering in the classroom if they are at the front of the class, to support education delivery, although settings should be sensitive to the needs of individual teachers.

In primary schools, we recommend that face coverings should be worn by staff and adults (including visitors) when moving around in corridors and communal areas. Health advice continues to be that children in primary schools should not be asked to wear face coverings.

See Circumstances where people are not able to wear face coverings for exceptions to this.

Face coverings do not need to be worn when outdoors.

Schools, as employers, have a duty to comply with the Equality Act 2010 which includes making reasonable adjustments for disabled staff. They also have a duty to make reasonable adjustments for disabled pupils, to support them to access education successfully. No pupil should be denied education on the grounds that they are not wearing a face covering.

Transparent face coverings

Transparent face coverings can be worn to assist communication with someone who relies on:

- lip reading
- clear sound
- facial expression.

Transparent face coverings may be effective in reducing the spread of COVID-19. However, the evidence to support this is currently very limited.

The benefits of transparent face coverings should be considered alongside the comfort and breathability of a face covering that contains plastic, which may mean that the face covering is less breathable than layers of cloth.

Face coverings (whether transparent or cloth) should fit securely around the face to cover the nose and mouth and be made with a breathable material capable of filtering airborne particles.

Face visors or shields can be worn by those exempt from wearing a face covering but they are not an equivalent alternative in terms of source control of virus transmission. They may protect the wearer against droplet spread in specific circumstances but are unlikely to be effective in preventing the escape of smaller respiratory particles when used without an additional face covering. They should only be used after carrying out a risk assessment for the specific situation and should always be cleaned appropriately.

Circumstances where people are not able to wear face coverings

There are some circumstances where people may not be able to wear a face covering. Please be mindful and respectful of such circumstances. Some people are less able to wear face coverings, and the reasons for this may not be visible to others.

In relation to education settings, this includes (but is not limited to):

- people who cannot put on, wear or remove a face covering because of a physical or mental illness or impairment, or disability
- people for whom putting on, wearing or removing a face covering will cause severe distress
- people speaking to or providing assistance to someone who relies on lip reading, clear sound or facial expressions to communicate
- to avoid the risk of harm or injury to yourself or others
- you are also permitted to remove a face covering in order to take medication

Access to face coverings

Due to the use of face coverings in wider society, staff and pupils are already likely to have access to face coverings. You should have a small contingency supply available for people who:

- are struggling to access a face covering
- are unable to use their face covering as it has become damp, soiled or unsafe
- have forgotten their face covering

Staff and pupils may consider bringing a spare face covering to wear if their face covering becomes damp during the day.

Safe wearing and removal of face coverings

Your contingency plans should already cover a process for when face coverings are worn within your school and how they should be removed. You should communicate this process clearly to pupils, staff and visitors and allow for adjustments to be made for pupils who may be distressed if required to remove a face covering against their wishes, particularly those with SEND.

When wearing a face covering, staff, visitors and pupils should:

- wash their hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting a face covering on
- avoid touching the part of the face covering in contact with the mouth and nose, as it could be contaminated with the virus
- change the face covering if it becomes damp or if they've touched the part of the face covering in contact with the mouth and nose
- avoid taking it off and putting it back on a lot in quick succession to minimise potential contamination

When removing a face covering, staff, visitors and pupils should:

- wash their hands thoroughly with soap and water for 20 seconds or use hand sanitiser before removing
- only handle the straps, ties or clips
- not give it to someone else to use
- if single-use, dispose of it carefully in a household waste bin and do not recycle
- once removed, store reusable face coverings in a plastic bag until there is an opportunity to wash them.
- if reusable, wash it in line with manufacturer's instructions at the highest temperature appropriate for the fabric 10
- wash their hands thoroughly with soap and water for 20 seconds or use hand sanitiser once removed

Separate guidance is also available on preventing and controlling infection, including the use of personal protective equipment (PPE), in education, childcare and children's social care settings.

Asymptomatic testing

Testing remains important in reducing the risk of transmission of infection within schools.

Staff and secondary school pupils should continue to test twice weekly at home, with lateral flow device (LFD) test kits, 3-4 days apart. Testing remains voluntary but is strongly encouraged.

Secondary schools should also retain a small asymptomatic testing site (ATS) on-site until further notice so they can offer testing to pupils who are unable to test themselves at home.

Schools are strongly encouraged to ask parents and other visitors to take a lateral flow device (LFD) test before entering the school.

Confirmatory PCR tests

Staff and pupils with a positive LFD test result should self-isolate in line with the [stay at home guidance for households with possible or confirmed coronavirus \(COVID-19\) infection](#). From 11 January 2022 the government is temporarily pausing the requirement to obtain a confirmation PCR test for positive LFD test results.

Health and Safety Risk Assessment – Opening LDEUTC September 2021– COVID-19

Academy / School	London Design & Engineering UTC	Assessment No.	
-------------------------	---------------------------------	-----------------------	--

Site	LDE UTC	Location	15 University Way, London E16 2RD		
Subject of Assessment	LDE UTC operating from September 2021 with regard to the COVID-19 pandemic. LDE UTC is classified as a secondary school with a Sixth Form and has 600 full time learners, 50 part time apprentice learners and 80 staff.				
Assessed by	Geoffrey Fowler Principal	Date	7 January 2022	Review date	ongoing
Details of workplace/activity	Learners and employees partaking in college activities within the college premises, including general classroom activities, dining, break-times, playgrounds, pick-up and drop off (where applicable), First aid and external visitors to the college.		Persons Affected <i>(Who may be harmed)</i>		
			Learners, Employees, Volunteers, Contractors and Visitors.		

	Hazards and Risks	Existing Control Measures	Risk Level <i>(Very High, High, Medium, Low)</i>	Ongoing Notes

	<p>place. Home working training has been made available from the Judicium e-learning portal.</p> <ul style="list-style-type: none"> • The college will try as far as practically possible to be flexible and accommodate additional measures for vulnerable people where appropriate • Specific risk assessments for new and expectant mothers are completed in line with current Government Guidance. • An ongoing review will be carried out for expectant mothers from 28 weeks gestation and for new or expectant mothers with underlying health conditions to identify reasonable adjustments and home working arrangements when required • In relation to mental health and stress support organisation, details are available to staff including confidential employee help lines and information that can be provided to learners; these can be accessed via the Wellbeing Padlet and the DigiBriefing padlet (for learners) • There are communication, consultation and support networks in place for staff and if there are particular concerns staff can raise them quickly and effectively; • Line managers are proactive in discussing wellbeing with the staff that they manage, including their workload <p>Communication with contractors:</p>		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
		<ul style="list-style-type: none"> The college has detailed discussions with contractors to ensure all of the Colleges COVID-19 controls measures are understood and followed. This includes hygiene measures. Where possible, site visits are made outside of college working hours. A record of all contractors/visitors is kept in order that NHS Test and Trace measures can be adhered to. Visitors will be asked to have a COVID test before attending site 		
5.	Spread/contraction of COVID-19 due to lack of good ventilation.	<p>Good ventilation will be maintained at all times. This is achieved by:</p> <ul style="list-style-type: none"> Identifying poorly ventilated areas and improving the flow of fresh air by opening external doors and windows; Except to restrict access to confidential/secure areas, wherever possible all classroom and other doors will be held open by doorstops (automatic release for fire doors) at all times when College is open, to limit the need to touch door handles. Ensuring mechanical ventilation draws in fresh air (rather than circulated old air) Adjusting systems to increase the ventilation rate and switching to full fresh air where possible 	Medium / Low	

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
6.	Spread/contraction of COVID-19 due to lack of hand-washing and general poor hygiene.	<ul style="list-style-type: none"> • Hand washing/sanitising stations are positioned at each learner, staff and visitor entrance to the College; • All those entering the College are required to wash/sanitise their hands; • Hand washing/sanitiser stations are located on each floor, and hand sanitiser bottles within each classroom and on entry and exit to the restaurant; • Hand washing sinks are located within each toilet provision; • Sink taps have been adjusted to maximise flow time to enable effective hand washing. • Signage is located adjacent to each wash station or sink reminding occupants to wash their hands and how to do it effectively; <p>Learners and staff have been shown how to wash hands properly;</p> <ul style="list-style-type: none"> • Help is available for young people who have trouble cleaning their hands independently; • Hand washing is recommended frequently and required at the following times: <ul style="list-style-type: none"> ➢ Entry and exit from the College; ➢ After using the toilet; ➢ When returning from breaks ➢ On entry to the dining hall; ➢ Before and after eating; ➢ On entry and exit from each classroom. • Unnecessary touching of the face is discouraged. 	Medium / Low	Posters remind learners of respiratory

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
		<ul style="list-style-type: none"> Teachers/Supervisors will remind learners to use tissues and bin them once used. If tissues are not readily available exactly when needed occupants are reminded to cough or sneeze into their arm; Toilets and wash stations have automatic non-contact hand dryers, or single use paper towel for drying hands. 		hygiene placed around the College
7.	Spread/contraction of COVID-19 due to lack of adequate cleaning measures.	<ul style="list-style-type: none"> The College has implemented additional cleaning regimes. This includes the following: <ul style="list-style-type: none"> ➤ Frequent cleaning of classrooms, Toilets, common areas and dining halls; ➤ Frequent cleaning of all touched surfaces, such as door handles, handrails, table tops. Classrooms will be cleaned at the beginning of each day if they have been used. During the day learners will be provided with antibacterial wipes to clean their desks and chairs each time they change rooms; Toilets will be cleaned in the morning, and then at regular intervals throughout the day; Common areas will be cleaned once a day with touchpoints wiped down throughout the day; Equipment used by the learners and staff will be suitably cleaned at the end of each day or before it is used by another person; 	Low/Medium	
9.	Spread/contraction of COVID-19 due to insufficient First aid measures or poor arrangements	<ul style="list-style-type: none"> A specific First Aid needs assessment has been completed – see other 'First Aid Needs assessment – COVID-19; 	Low/Medium	

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
<p>when handling learner's medication. This includes:</p> <ul style="list-style-type: none"> • Dealing with general First aid; • Lack of trained first aiders; • Dealing with a suspected case of Covid-19; • Inappropriate handling / removal of clinical waste • Aerosol Generating Procedures (AGP) 	<ul style="list-style-type: none"> • The FA assessment takes into account numbers and ages of learners, number and training of employees; • This information forms the decision on what activities and groups can safely be managed within the college; • This includes sufficient first aiders for the college to the number of learners; • Qualified first aiders are in place at an appropriate ratio; • Where an individual displays symptoms of the virus during the college day the individual will be isolated in the designated room until additional medical assistance can be gained. This may be 111 support, an ambulance or until they leave the site to self-isolate; • The door to the isolation room will be closed (where possible). • Staff escorting the individual will be provided with disposable gloves and apron if the 2 metre social distancing rule cannot be maintained • Where the risk of contact with droplets to the face, e.g. from coughing or vomiting, face protection should be provided • Staff or contractors carrying out the area clean should be provided with a minimum of disposable gloves, aprons, mop heads or paper towels. • Where visible contamination, e.g. saliva droplets, is present face protection in the form of mask, goggles or face shield will be provided. 		

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
	<ul style="list-style-type: none"> • All building users advised re monitoring their own health, reporting of symptoms and self-isolating • Where available, the college will provide individual displaying symptoms with a home testing kit – where the individual is a learner, the kit will be provided to their parent or carer • First aiders required to assist this person will wear full PPE including, apron, gloves, mask and visor; • First aiders have completed appropriate training for 'donning and doffing' PPE – PHE guidance: https://www.gov.uk/government/publications/COVID-19-personal-protective-equipment-use-for-non-aerosol-generating-procedures • PPE is disposed of in accordance with NHS COVID-19 waste management guidance; https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings/covid-19-decontamination-in-non-healthcare-settings • The first aid room will be cleaned frequently and after each use (when first aid care has been provided). • Staff dispensing medication to learners should minimise contact and their wash hands before and after dispensing the medication. If required, gloves will be worn by staff when giving medication • Where appropriate, learners should take the medication out of the blister packs/bottles then place the unused ones back in the cupboard, etc. 		

Hazards and Risks	Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
	<p>Waste disposal measures Waste control measure from possible cases of COVID-19 and cleaning of areas where possible cases have been identified (including disposable cloths and tissues) are as follows:</p> <ul style="list-style-type: none"> • Put in a plastic rubbish bag and tied when full; • The plastic bag is placed in a second bin bag and tied; • It is put in a suitable and secure place and marked for storage until the individual's test results are known; • Waste is stored safely and kept away from children; • Waste is not put in communal waste areas until negative test results are known or the waste has been stored for at least 72 hours; • If the individual tests negative, this can be put in with the normal waste; • If the individual tests positive, then waste is stored for at least 72 hours and then put in with the normal waste; • If storage for at least 72 hours is not appropriate, a collection as a Category B infectious waste is arranged by either local waste collection authority if they currently collect your waste or otherwise by a specialist clinical waste contractor. They will supply you with orange clinical waste bags for waste bags can be sent for appropriate treatment. 		

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
12.	Lack of staffing / insufficient staff ratios	<ul style="list-style-type: none"> Adequate ratio of staff to children will be maintained and is assessed on a daily basis, based on potential staff illness or self-isolation. Learners are suitably supervised at all times; 	Medium	
13.	Lack of suitable premises management	<ul style="list-style-type: none"> Premises staff levels are maintained and suitable for the use of the building; Appropriate cleaning and premises staffing levels are in place; Waste removal and enhanced cleaning programs are in place for the potential coronavirus contaminated waste; Contingency in place for sudden premises staff absence, this is in the form of agreed emergency premises staff support from UEL; Good ventilation can help reduce the risk of spreading coronavirus, where possible windows doors (fire doors on automatic release doorguards) will be opened to improve general ventilation through fresh air, when this is not possible, the Premises Manager will look at improving mechanical systems. 	Low	
14.	Hazardous substances management, unsuitable COSHH management and unsafe use of chemicals leading to ill-health, environmental contamination or fire.	<ul style="list-style-type: none"> Suitable storage and management of flammable hand sanitizer is in place; All chemicals used for the cleaning of college buildings and equipment is COSHH assessed and managed appropriately; 	Low	

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
		<ul style="list-style-type: none"> • Material safety data sheets are held for all chemicals and readily available to all staff; • All cleaning chemicals are stored safely and securely in accordance with requirements; • COSHH safety training has been completed by all those using chemicals for cleaning; • Appropriate PPE is available for all cleaning including suitable PPE for cleaning of potential coronavirus contaminated rooms or equipment. 		
16.	Transmission of Covid-19 via food preparation, handling, storage, contact surfaces or packaging.	<ul style="list-style-type: none"> • The Kitchen/Catering Manager has reviewed and implemented the <u>Guidance for food businesses on coronavirus (COVID-19)</u> • The Kitchen Manager has reviewed and implemented <u>FSA guidance on good hygiene practices</u> in food preparation and <u>PHE guidance</u> • The HACCP processes and waste disposal arrangements have been reviewed to reduce the spread of coronavirus 	Low/Medium	
17.	Spread/contraction of COVID-19 during an educational visit.	<ul style="list-style-type: none"> • Domestic local, residential and international education visits can take place with appropriate planning in line with the Educational Visits Policy. • International visits will be planned taking into consideration Government guidance https://www.gov.uk/government/publications/health-and-safety-on-educational-visits 	Low/Medium	

Hazards and Risks		Existing Control Measures	Risk Level (Very High, High, Medium, Low)	Ongoing Notes
		<ul style="list-style-type: none"> The college will check broader international travel policy and travel legislation and will have contingency plans to account for any changes The college will liaise with the visit provider and the insurance provider to assess the protection available and ensure the safety and wellbeing of staff and learners All visits will be conducted in line with relevant COVID-19 Guidance and regulations in place at the time. Sports fixture competitions with other schools/colleges that take place outside have resumed and follow Guidance A risk assessment – in line with the college’s policy will be carried out for all educational visits. 		
18.	Spread/contraction of COVID-19 from learners arriving from abroad.	<ul style="list-style-type: none"> Where possible, remote education is provided to learners who are abroad and are facing challenges to return due to travel restrictions. The college liaises with the parent/guardian of learners travelling from abroad to ensure all the guidance requirements have been met https://www.gov.uk/guidance/red-amber-and-green-list-rules-for-entering-england All learners and staff travelling to England must adhere to government travel advice in travel to England from another country during coronavirus (COVID-19). Parents travelling abroad should bear in mind the 	Low/Medium	

Hazards and Risks		Existing Control Measures	Risk Level <i>(Very High, High, Medium, Low)</i>	Ongoing Notes
		impact on their child’s education which may result from any requirement to quarantine or isolate upon return. Where pupils travel from abroad to attend a boarding school, you will need to explain the rules to pupils and their parents before they travel to the UK.		
19.	Students’ stress, anxiety or poor behaviour due to the ongoing changes and challenges caused by the pandemic.	<ul style="list-style-type: none"> The school is utilising all the advice and resources available on the Pupil wellbeing and support section of the DfE guidance Schools coronavirus (COVID-19) operational Guidance 		

ACTION PLAN (Additional Control Measures Required/Recommended Actions)	
Hazards and Risks	Recommended Actions

Please note:

All controls are subject to government guidance being reviewed due to changes to the 'R' rate. This could be amended on a daily basis. Government and DfE guidance MUST be regularly reviewed. The risk assessment must be reviewed if there is a significant change.

*Following assessment if no further actions are assessed to be required please mark an **X** in the "Further Actions" box. If however additional controls or actions are assessed to be required please place a **√** in the box and note the action in the action plan.*

Any further actions identified should be completed before the assessed task is carried out.
