

Izzat Joyan - Teacher of Computer Science

Izzat Joyan is a passionate Computer Science educator with over five years of experience in teaching and curriculum development across diverse educational settings, and having worked as Head of Computer science and 2ic in his last two roles. He excels in creating engaging resources and fostering a positive learning environment that drives student achievement. Skilled in Python programming and effective classroom management, Izzat has a strong track record of mentoring trainee teachers and implementing data-driven strategies to enhance instructional effectiveness. He is committed to continuous professional development and actively seeks innovative methodologies to enrich student learning experiences. With a solid foundation in both education and the tech industry, Izzat aims to bridge theoretical knowledge with practical application, ensuring that students are well-equipped for future challenges. In his spare time, he enjoys exploring the latest advancements in technology and working on various coding projects.
