

Katherine Jane Harris

Data and MIS Lead

I have been working in schools and colleges for over twenty years and I am dedicated to using MIS to help improve outcomes for learners and to help inform teaching staff.

I have a background in computing and IT and I am very interested in improving my skills so that I never stand still.

I am a qualified Data protection practitioner, and I am ISO 27001 certified (the international standard for information security). I am passionate about data security and I enjoy the fact that this area keeps evolving with developing technologies.

The highlight of my career has always been helping my colleagues and being part of a team, I do genuinely like to offer support whenever I can.
