London Design & Engineering UTC

LDE UTC Societies

We are really pleased to present the 2021/22 societies.

Being part of a society demonstrates learners' commitment to other activities outside of their studies which can be used to their advantage when it comes to applying to universities or employment. For example, memorable moments from your time at the club can make great discussion points in your interview.

We also believe that some learners and staff have not had the opportunity to explore and develop their interests during the past two years whilst the Covid-19 pandemic has placed many restrictions on what we used to take for granted in everyday life. These societies will provide a broad and balanced range of activities that will both be fun and engaging whilst also providing a wider set of knowledge and skills that will benefit us all.

Societies are optional and we would encourage all learners to take up these exciting opportunities.

Please read through the societies below and then when you have chosen which ones you would like to join, click on the link on the LDE UTC societies webpage to sign up.

Societies

It's Debatable	4
English GCSE Club	5
Yr 9 & 10 Mathematics Study Group	6
KS5 Mathematics Study Group	7
Yr 11 Foundation Maths	8
Yr 11 Higher Maths	9
Rising Stars
