

Dear Parent / Carer

LDE UTC Year 9 Enterprise Project

As part of our Enterprise curriculum for Component 2 Planning and Pitching a Micro Enterprise, your son/daughter will need to complete an end on year project gaining practical experience. The project will take place at:

Venue: London Design and Engineering UTC

Time: 10:00am - 2:00pm

Date: Saturday 5th July 2025

Funding: £50.00

Arrival/Set up time: 9.30am

Finish/Tidy up time: 2:00pm

It is mandatory that the selected learners are present and participating before and during the event.

Your son/daughter have been given the options to get funding for this project. Only one option can be used:

Option 1: Loan - Pitch to a member(s) of the Senior Leadership Team for Funding – the learner will need to come up with a pitch and present it. Learner will also need to book the meetings and send emails.

Option 2: Self-funding (Owners Capital)– Each group member can put a set amount into the enterprise. At the end of it all, money can be distributed back to individuals.

Option 3: Friends and Family– can approach friends and family to fund their business. The learners will need to pitch the idea to them.

Please note: If the learners do select option 1, the £50 will need to be paid back to the college.

All profits made; the group will retain and share accordingly.

Yours sincerely,

The Enterprise/Business Team
