

29<sup>th</sup> October 2021

Dear Parent/Carer,

**Letter from the Education Secretary re Covid-19 vaccinations for 12-15-year-olds**

The Education Secretary, Nadhim Zahawi has written to parents of secondary school and college learners, reminding everyone about vaccinations for 12 to 15 year olds.

Learners are encouraged to take a lateral flow device (LFD) test at home and report the result before returning to college after half-term and flipped learning week, and then to test twice-weekly after that. This is a key part of reducing transmission and case rates, and keeping children and young people in face-to-face education.

I have attached a link to the letter to enable you to read it fully: [Letter from the Education Secretary – vaccinations for 12-15 year olds.](#)

Yours sincerely,

**Gloria Gold**  
**Vice Principal – Personal Development and Wellbeing**
