

Rosemarie Jane Manansala – Office Assistant

I recently graduated from the University of East Anglia with a 2:1 in BSc (Hons) Psychology. I intend to kickstart my career with LDE UTC's administrative team to progress into the HR sector. During university, I was immersed in all aspects of my course but was gravitated towards mental health, social psychology, and organisational psychology. My final year dissertation was focused on workplace injustice affecting employees' mental wellbeing, which furthered my interest in the operations of an office setting and their approaches to mental health. I also intend to become a qualified Mental Health First Aider.

Before university, I worked within the childcare and education sector as a nursery and teaching assistant. I am looking forward to participating in the operations behind a successful school. I believe I would learn rewarding skills from the supporting team and deliver accordingly to become a valuable member during my time at LDE UTC.
