

Tony Green

Assistant Principal – Pastoral & Learning Support Unit Lead (LSU)

Born and raised in the East End of London, Tony began his career in education in 2006. He has worked across several London boroughs, developing alternative provision and personalised curriculum programmes to meet diverse student needs. Tony has been instrumental in turning around two schools previously in 'special measures', remaining with each until they achieved a 'good' rating.

With a deep understanding of the barriers students can face in mainstream education, Tony brings a wealth of experience to LDE UTC. He is passionate about creating pathways that support individual student success and firmly believes that with the right structure and support, every student can fulfil their potential.
