

Trish Murphy

Apprenticeships Manager

Trish joins LDE UTC in June 2020 as Apprenticeships Manager following 10 years' experience within the apprenticeship sector. Her experience ranges from working in training provider settings within FE & HE organisations, plus 3 years as an Apprenticeships Manager within a large levy paying employer in the construction and facilities management industry.

Trish's experience spans from recruiting apprentices across multiple curriculum areas, coordinating programme delivery, offering pastoral support through to client account management and advising on effective utilisation of the apprenticeship levy.

During her early career, Trish worked within the central government Department of Business, Innovation & Skills (BIS) where excellent organisational, interpersonal and negotiation skills were developed.

Trish is passionate about apprenticeships as a career pathway and is excited to be joining the LDE UTC at this time to build on the work that has already been undertaken to deliver a high-quality apprenticeship service. She is looking forward to working closely with employers to plug identified skills gaps, ensuring employers and students have a great experience and watch students develop into competent and well-trained professionals.
